PROFILE SUMMARY

MCA graduate (CGPA 9.78/10) with a strong foundation in Java, Python, SQL, and MySQL, and practical experience in Object-Oriented Programming (OOP), Database Management (RDBMS), and the Software Development Life Cycle (SDLC). Hands-on experience building CRUD-based web applications using Java, JDBC, PHP, HTML, CSS, JavaScript, and Bootstrap, along with working knowledge of JSP, Servlets, and basic React.js. Completed a Software Developer Internship applying these skills to real application modules, debugging, and database operations. Seeking an entry-level opportunity as a Software Engineer, Software Developer, Java Developer, or Associate Software Engineer.

EDUCATION

- Master of Computer Applications (MCA) | Shram Sadhana Bombay Trust's College of Engineering and Technology (KBCNMU), Jalgaon | 2024–2026 | CGPA: 9.78/10
- Bachelor of Computer Applications (BCA) | Shram Sadhana Bombay Trust's College of Engineering and Technology (KBCNMU), Jalgaon | 2021–2024 | CGPA: 9.5/10

TECHNICAL SKILLS

Programming Languages: Python, Java

Frontend Technologies: HTML, CSS, JavaScript, Bootstrap

Web Technologies: JSP (JavaServer Pages), Servlets, React.js (Basic)

Databases: SQL, MySQL, RDBMS, JDBC

Core Concepts: Object-Oriented Programming (OOP), Data Structures and Algorithms (Basic), Software Development Life Cycle (SDLC), CRUD Operations, Manual Testing, Problem Solving

Tools & Platforms: Git, GitHub, VS Code

EXPERIENCE

Software Developer Intern | GPT Software, Pune

June 2026

- Contributed to software development activities using Java, PHP, SQL, and MySQL, working on real application modules as part of the team.
- Developed and tested application modules following Software Development Life Cycle (SDLC) practices.
- Performed database operations, data management, and debugging tasks to ensure application reliability.
- Collaborated with team members on technical documentation, testing, and end-to-end project development.

PROJECTS

Company Billing System | HTML, CSS, JavaScript, PHP, MySQL | [View Project](#)

- Built a web-based billing management system using PHP and MySQL, covering three core modules: customer management, product management, and billing.
- Implemented full CRUD (Create, Read, Update, Delete) operations across all modules for end-to-end record management.
- Integrated automated GST bill generation and secure database connectivity using MySQL.

AI-Powered Food Delivery Platform | Python, Machine Learning, Data Analysis

- Studied and applied Machine Learning concepts in Python for delivery route optimization and demand forecasting.
- Performed data analysis to identify demand patterns and support improved delivery planning.
- Authored and published a research paper in the International Journal of Progressive Research in Engineering, Management and Science (IJPREAMS).

Teacher Record Management System | Java, JDBC, MySQL

- Built a teacher record management application using Java, JDBC, and MySQL.
- Implemented full CRUD (Create, Read, Update, Delete) operations for efficient and accurate record management.
- Integrated secure JDBC-based database connectivity for reliable data storage and retrieval.

CERTIFICATIONS

- Research Publication Certificate - "AI-Powered Food Delivery Platform" (IJPREAMS)
- Infosys BPM CSR Training - by Infosys LTD.

ADDITIONAL INFORMATION

- Open to Relocate Across India
- Available for Full-Time Software Developer / Software Engineer Roles
